Digital Media Developers Group
Dec. 4, 2003 Meeting Notes

Old Business:
ITAB Report - Kay Dinolfo

- The e-Gov committee brought in the META group to develop a mission and vision statement. They are continuing to work on generating additional revenue sources. The Business One Stop Group has registered the LLC.
- The e-mail infrastructure committee has discussed consolidating to Microsoft Exchange. They plan to rollover to this by the end of the fiscal year. We should go from 30 separate e-mail servers down to 24 separate e-mail server. One state e-mail infrastructure will allow calendar scheduling across agencies.
- ITAB suggests having one privacy statement for all of Missouri instead of each agency having its own.

Web Accessibility – Kay Dinolfo

- A subcommittee met and worked up proposed performance measures for Web Accessibility as part of OIT's strategic plan. They were read and the DMD agreed on the wording. Kay will forward the proposed measures to OIT for review and inclusion.

DMD/Web Promo Conference – Kirk Keller

- Rooms 490/492 of the Harry S. Truman Building has been reserved for April 22, 2004. Kirk asked what groups we are hoping to draw to this conference. It was decided we are hoping to draw Public Information groups, Web developers, ITAB and those interested in Web accessibility.
- E-mail any ideas to Kirk at kirk.keller@mdc.mo.gov

Apache Upgrade – Steve Owens

- MOREnet hopes to have the upgrade from version 1.3 to 2.0.48 together by next week. They will send an announcement before upgrading.

New Business:
- Debbie gave a couple of announcements from e-mail she received.
- The O/A Listserv should be changed to the new box within six months. All Listserv names will change from @mail.state.mo.us to @missouri.gov at that time.

Agency Projects/Open Discussion:

- All statute Web addresses have changed. Jason Walters with the House of Representatives said they added three digits after the section number. Jason will let us know what the renaming method is for sure so we can change our links.
- Kirk asked if anyone used Microsoft Office XML features. Are there proprietary hooks? Most thought there probably would be. If you have information feel free to e-mail Kirk.
- Jason Walters from the House of Representatives announced they will have their updated design up by the first of the calendar year.
- Debbie announced we would vote on our DMD co-chair facilitator at our March 2004 meeting. Kay Dinolfo has offered to continue as the co-chair / ITAB liaison for another two year term.

Next monthly meeting is **January 8** from 1:30 p.m. until 3 p.m. in room 493 of the Harry S. Truman building.
